

Mosaico

Collection

Embrace versatility and the freedom to design your own space with modular configurations, crafted to create a pleasant and personalized outcome.

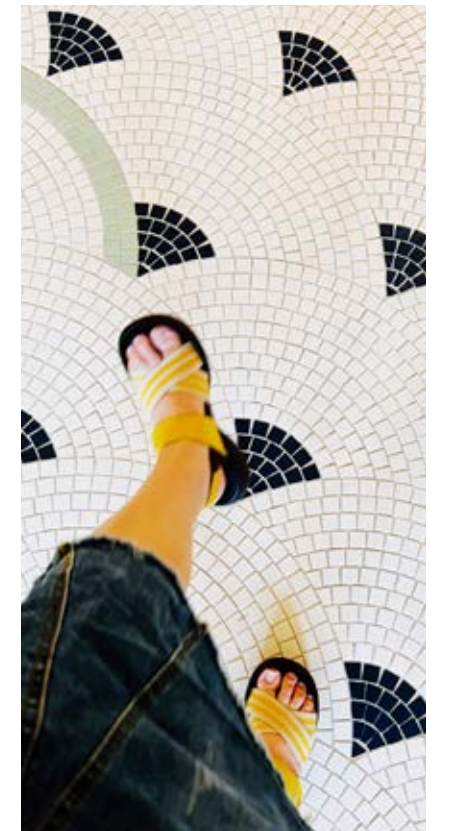

Why Tiles ?

The influence of MOSAICO TILES Design in Architecture

Modular tiles design offers tremendous versatility, enabling brand and culture personalization.

Its adaptable system allows for adding, replacing, and removing standard units, accommodating variations in patterns, colors, and materials.

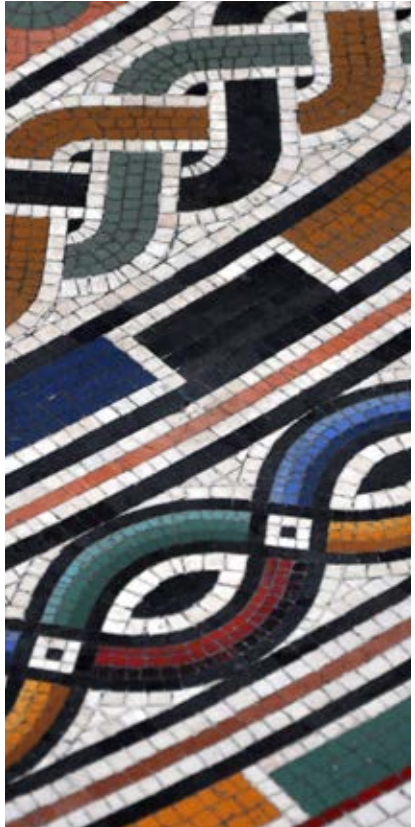

This flexibility transforms plain walls into artistic focal points, providing a wide array of options to express your story and design culture.

The influence of MOSAICO TILES Design in Art

Modular art is created by joining standardized units (modules) to form larger, complex compositions.

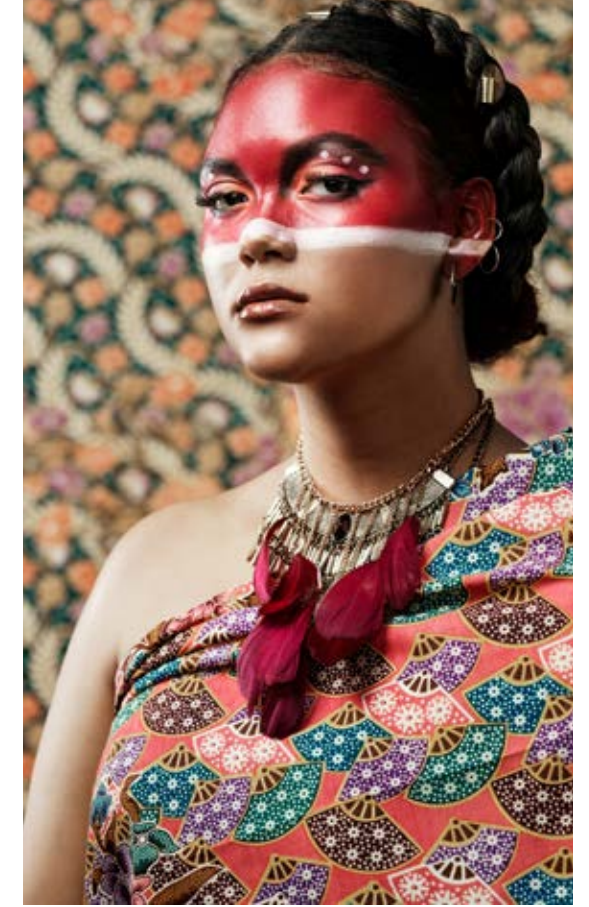

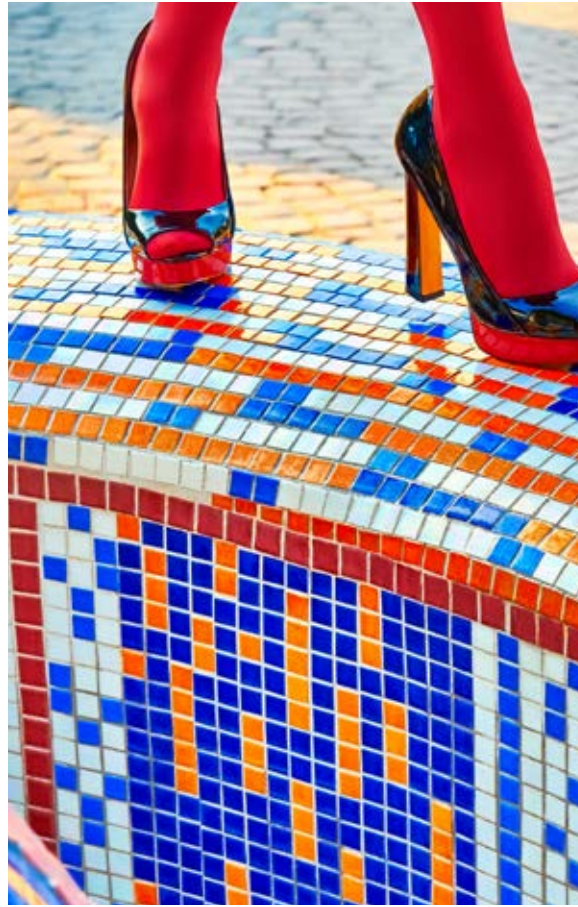

Using Mosaico tiles in art offers endless opportunities for creativity and expression, enabling artists to craft visually stunning and meaningful works.

The influence of MOSAICO TILES Design in Fashion

Contemporary designers incorporate mosaic-inspired elements into their collections, using bead-work, embroidery, and prints to create unique fashion statements.

Transformable clothing aligns with environmentally ethical fashion design by encouraging consumers to buy fewer items due to its versatility and adaptability.

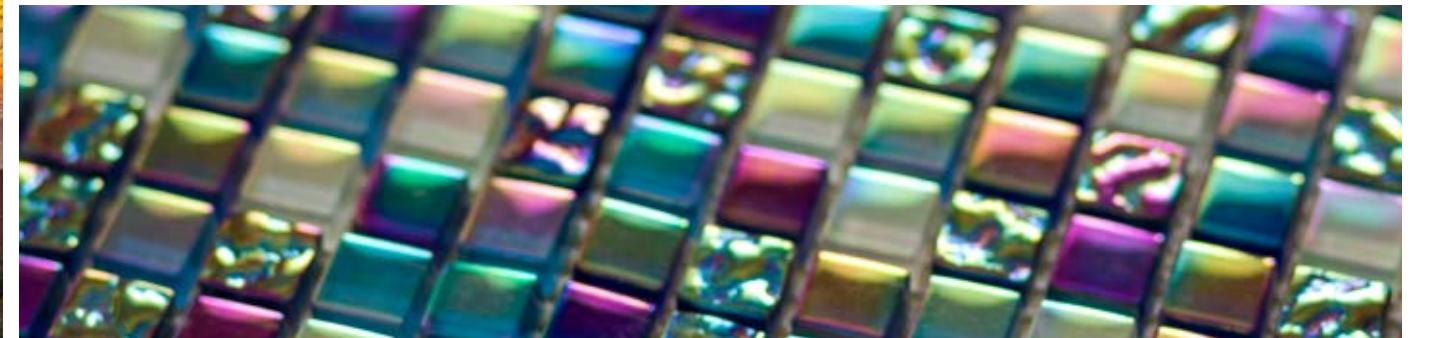

MOSAICO

The fantastic design and manufacturing process of Italian Venetian Glass inspired our MOSAICO product offering.

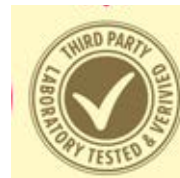

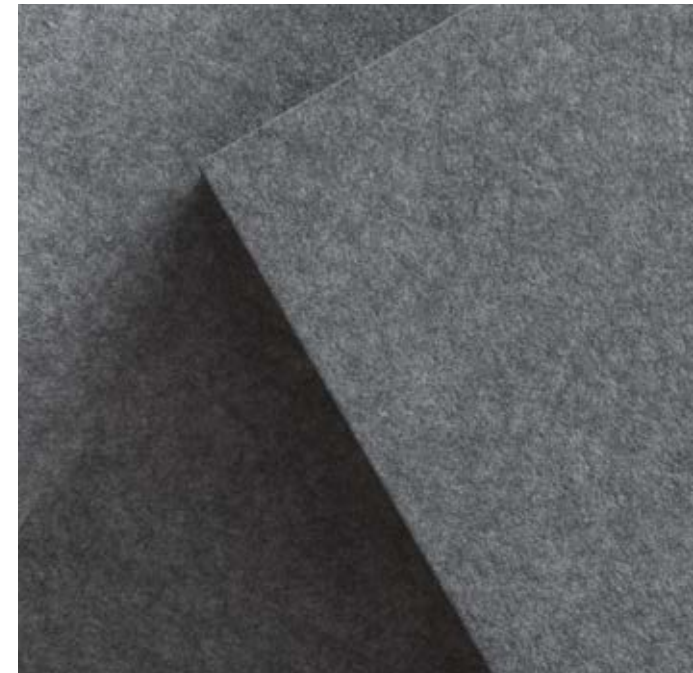

The beauty of patterns, colors, and textures to create a signature art wall ignited the need to incorporate a vibrant acoustic solution, introducing a new way to experience your space.

Mosaico/ Materials

Specifications Acoustic Felt

CONTENT	Acoustic felt, Soundcore® Recycled PET Acoustic PoshFelt® 100% Organic Wool Felt
DURABILITY	Impact resistant, shock absorbant
WEATHERING	Non-deteriorating, non-hygroscopic, colorfast
MAINTENANCE	Clean with vacuum or light dusting
WARRANTY	Comes with industry-leading standard warranty
ENVIRONMENTAL	LEEDv4, VOC free, 100% recyclable, non-toxic, non-allergenic, anti-microbial
INSTALLATION	CSI Installation Systems are product specific (see Installation page)
ACOUSTICS	0.60 NRC
FLAMMABILITY	ASTM E84: Class A
SUSTAINABILITY	Made from 60% recycled content and is 100% recyclable

Mosaico/ Materials

Specifications Replica Greenery

Moss

APPEARANCE	Built botanically accurate
FIRE TREATMENT	Injection Molded
 THERMALEAF®	Inherently Fire retardant Foliage
MAINTENANCE	Clean with vacuum or light dusting
FIRE WARRANTY	Lifetime fire protection

Trimmed Options

As we propose trimmed greenery options, we have your brand in mind. Whether subtle and controlled, serving as a simple background, or creating a lush bed of green to add texture to your space, our trimmed greenery shapes and maintains green surfaces in a way that keeps them neat, orderly, and well-groomed.

MOSAICO

Transforming the experience of the Interior Space.
